

## Mean, Median and Mode

**1** Fill in the blank.

The median is the \_\_\_\_\_ of an ordered data set.

**2** Fill in the blank.

The mean is another term for the \_\_\_\_\_ value of a data set.

**3** Fill in the blanks.

To calculate the mean, \_\_\_\_\_ all the numbers in the data set and then \_\_\_\_\_ the total by the number of members in the data set.

**4** True or False?

If no values are repeated, then a data set doesn't have a mode.

True       False

**5** Calculate the mean of this data set.

{ 8, 3, 5, 12 }

**6** Find the median of this data set.

{ 0, 3, 4, 8, 10, 15, 20 }

**7** Find the Mean, Median and Mode of this data set:

{ 7, 2, 5, 8, 14, 8, 10, 2 }

**8** This table records how many miles Rob walked each weekday. Find the Mean, Median and Mode of this data set.

Day	Miles
Mon.	2.6
Tue.	0.0
Wed.	0.8
Thu.	2.1
Fri.	1.5
